FACT SHEET

Finding Funds for you school community

To assist Queensland parent associations, teachers, students and families navigate the many avenues of financial support, the Department of Education and the Arts has collected grant information into a single, user-friendly publication suitable for both state and non-state schools. This is not an exhaustive list of all the grants available, but is intended as a guide to opportunities.

This guide includes funding and entitlements from federal, state and local governments as well as a selection of generous private sector initiatives. These programs are, of course, additional to the vast operational and capital works grants already provided to schools by the department.
